

## Firefighter Cancer Awareness – 4hrs.

Cancer is the most dangerous threat to firefighter health and safety today.

Developed on research done by the Firefighter Cancer Support Network, the IAFF, and the National Fallen Firefighters Foundation, this session provides a basic awareness and understanding, as well as preventive measures to begin reducing firefighter cancer risk today.

Since 2005, the nonprofit Firefighter Cancer Support Network (FCSN) has provided assistance and one-on-one mentoring to thousands of cancer-stricken firefighters and their families. FCSN also delivers extensive firefighter cancer awareness and prevention training nationwide.

### **Host Responsibilities:**

- ❖ Minimum 10 students.
- ❖ Projector, screen and laptop (please let NDFA know if you don't have these items)

### **Minimum Student Requirements**

- ❖ Expect to participate in the class discussion
- ❖ Ready to learn
