Amendment No. 1

To: ALL INTERESTED SUPPLIERS

From: North Dakota Department of Transportation

Date: January 29, 2018

Re: Amendment to Bid 760-10-18-050, GRAPPLE FORK BUCKET

Bidders Instruction #9 of the solicitation established a deadline for receipt of questions. The responses to these questions are provided as addenda to the solicitation. When necessary, the solicitation has been amended.

Question 1: What is the make and model of the AWD loader host machines?

Answer 1: Two will go on a John Deere 444 J and one will go on a Cat 914G.

Question 2: Will you accept five 4/5" Grade 80 Teeth?

Answer 2: Yes.

Question 3: Do the tines have to have lateral gussets?

Answer 3: The tines do require some sort of lateral gussets or pipes or support connecting/supporting the tines to eliminate any bending or possible breakage of the tines. In the past, NDDOT awarded to buckets which have two tines connected together on the left and two tines connected together on the right. With this Amendment 1 is an example/picture of what we have purchased in the past.

Question 4: Will you accept bids for a grapple fork bucket that doesn't have independently operated tines?

Answer 4: We will accept bids if the equipment doesn't have independently operated tines so long as it doesn't hinder the performance of the grapple.

Question 5: Will you accept the MDS grapple bucket?

Answer 5: No.

Question 6: Will you accept the AMI removable grapple bucket?

Answer 6: Yes.

Question 7: Do you want the grapple bucket to have a full bolt on cutting edge?

Answer 7: No, NDDOT requires six bolt on teeth with cutting edge segments in between.

Question 8: Is a five tine grapple acceptable since you are asking for split operation?

Answer 8: Four, five, or six tine grapple buckets are acceptable to bid.
