North Dakota Department of Transportation Districts

February, 2008

Attached (the next 11 pages) is the NDDOT Personnel Policy entitled "Required Alcohol and Controlled Substance Testing of Employees in Safety-Sensitive Positions (CDL & Pilots)."

**ND DEPARTMENT OF TRANSPORTATION
POLICY NUMBER: 18.1**

**REQUIRED ALCOHOL AND CONTROLLED-SUBSTANCE TESTING
OF EMPLOYEES IN SAFETY-SENSITIVE POSITIONS (CDL & Pilots)**

DIVISION	Human Resources	ORIGINAL DATE	12-12-1974
		REVISED/REVIEWED DATE	05-01-2011

SCOPE: This policy applies to all employees who are in safety-sensitive positions that require a Commercial Driver's License (CDL) regardless of status.

POLICY

In an effort to prevent injuries and deaths due to drug- or alcohol-impaired operators of commercial vehicles, the United States Congress enacted the Omnibus Transportation Employee Testing Act of 1991 (49 Code of Federal Regulations (CFR) Part 40) (the "Act"). This federal law mandates drug and alcohol testing for all persons who operate a commercial motor vehicle.

All Department employees who, **as a requirement of their job**, operate vehicles classified as commercial and have a CDL, are considered to be in "safety-sensitive positions" and are subject to the Act. **Department pilots** are also considered to be in "safety-sensitive positions" and are subject to the provisions of this policy. Provisions for disciplinary actions are based on the independent authority of the Department.

Safety-Sensitive Positions

This policy concerns only employees considered to be in "safety-sensitive positions" and describes Department implementation of the Act. Employees in the classes below are subject to the alcohol and controlled-substance requirements of this policy:

Highway Traffic Control Specialists
Fleet and Equipment Technicians
Engineering Technicians operating commercial vehicles
Other employees operating commercial vehicles
Pilots
Transportation Technicians

Department Requirements to Notify Employees About This Policy

New employees will be notified about this policy after they are hired but before they report to work with the Department. New employees must sign off, indicating that they have read and understand the policy, before they begin work duties with the Department.

Expected Behavior and Consequences of Non-Cooperation

Employees in safety-sensitive positions are expected to not use drugs or alcohol on the job in any form including mouthwash or cough syrup containing alcohol. Employees are expected to test when requested. Refusal to test as requested, failure to appear for tests, failure to cooperate at the

testing site, or attempts to alter test results will be grounds for disciplinary action, up to and including termination.

Employees are responsible for notifying the Department as soon as practical of any aircraft or commercial motor vehicle accident that occurs on the job.

Prohibited Behavior

Performance of safety-sensitive functions is prohibited:

- While using alcohol and/or illegal drugs.
- While using prescription drugs containing controlled substances contrary to a physician's instructions.
- While having a breath-alcohol concentration of **0.02 percent** or greater as indicated by an alcohol breath test.
- Within four hours after using alcohol.
- When refusing to submit to an alcohol and/or drug test.
- While using alcohol within eight hours after an accident or until tested.
- While using illegal controlled substances.

Prescription Medications

This policy does not prohibit employees from the lawful use and possession of prescribed medications. Employees must, however, consult with their doctor about the medication's effect on their fitness for duty and ability to work safely and promptly disclose any work restrictions to their supervisor. Employees should not, however, disclose underlying medical conditions unless directed to do so.

Test and Travel Time

Tests required by the Department, except for pre-employment tests and return-to-duty tests, are considered a duty assignment.

Time for travel and time spent in providing the specimen at the collection site for duty assignment tests will be with pay.

Out-of-Service Request

All employees are subject to being on-call or recall for emergency duties. However, if the employee has had even a part of one drink in the four hours prior to the call, or suspects that he or she may have a breath-alcohol concentration of .02 or above, the employee must take himself or herself out of service.

No disciplinary measures will be taken when the employee requests to take himself or herself out of service unless there is abuse of this request or if the employee is on-call.

PROGRAM ADMINISTRATION

The State Fleet Services Director will be the Department coordinator for the program and will be responsible for implementing and overseeing the program. The Department coordinator's duties will include managing the vendor contract, responding to inquiries from the U.S. Department of

Transportation (USDOT), and relaying information on positive test results to the Human Resources Division (HRD) Director. The HRD Director will notify the Executive Office.

In the absence of the State Fleet Services Director, the HRD Director will be the contact person.

Division and District Program Administration

Each applicable division and district will have a designated position and backup position to coordinate testing with the vendor. Division and district coordinators will receive the list of employees to be tested; arrange test dates, times, and places; and notify the employees who will be tested.

Safe Transportation of Employees to and From Testing Site

Division and district coordinators will assure that each employee suspected of being under the influence of alcohol or drugs is escorted to the testing facility by a supervisor or other member of management and arrangements made for the employee to be transported home.

Supervisor Responsibilities

Supervisors include:

- Transportation Technician II or III
- Fleet and Equipment Service Supervisor
- Highway Traffic Control Supervisor
- All district managers
- All managers in the State Fleet Services, Human Resources, Materials and Research, and Maintenance and Engineering Services Divisions
- All members of the Department executive team
- Any other employees who supervise or are managers over employees whose work requires a commercial driver's license or pilot's license.

No Department manager or supervisor of employees in safety-sensitive positions will permit any employee to violate this policy. All managers and supervisors must require reasonable-suspicion testing of any employee who would appear to be in violation of this policy. Failure to carry out supervisory duties under this policy will result in disciplinary action, up to and including unpaid suspension or termination.

All responsible managers and supervisors will receive the training necessary to perform their supervisory duties. The training will cover the physical, behavioral, speech, and performance indicators of probable alcohol misuse and use of controlled substances. The testing vendor or Employee Assistance Program (EAP) provider will train supervisors.

All supervisors and managers are bound by the rules of confidentiality. No information may be released except as provided in this policy, expressly authorized by 49 CFR 382.405, or as required by North Dakota's Open Records Law, NDCC Section 44-04-18. No managers or supervisors responsible for implementing random testing may give any notice or information about upcoming test requirements. Any violation of the confidentiality or notice requirements will result in disciplinary action, up to and including unpaid suspension or termination.

Department Requirements to Inform Prospective Employers

If asked, and the proper release of information is provided, the State Fleet Services Director will disclose the following information to any potential future employers of employees covered under the Department's alcohol- and drug-testing programs:

1. Any test results.
2. Any referral for evaluation and rehabilitation and the results of any such referral.

TESTING REQUIREMENTS

Pre-employment Testing

All applicants must pass a drug test before beginning work. The test is administered after being selected but on condition of passing the drug test. Refusal to submit to testing will result in disqualification of employment consideration.

The Department must inquire of previous employers before hiring someone to fill a safety-sensitive position. Prior to being hired by the Department, applicants must sign a release of information allowing Department officials to inquire of previous employers about the applicant's drug-testing history during the previous two years. Information that may be requested includes:

1. Previous test dates.
2. Positive test results.
3. Refusals to test.
4. Evaluation and rehabilitation results.

Reasonable-Suspicion Testing

A supervisor must require, and an employee must undergo, alcohol or controlled-substance testing when the employee's supervisor has reason to believe that the employee has used alcohol or controlled substances in violation of the Act or this policy. An alcohol test may be administered just prior to, just after, or while the employee is performing a safety-sensitive function.

All supervisors will be given adequate training to make judgments about a reasonable suspicion of drug or alcohol use. The supervisor's judgment must be based on specific observations relating to appearance, behavior, speech, or body odors, including indications of the chronic and withdrawal effects of controlled substances. The supervisor must document the observations fully upon notifying the employee that testing is required. Supervisors will be trained regarding physical, behavioral, speech, and performance indicators of probable alcohol misuse and use of controlled substances.

The testing vendor will administer the reasonable suspicion alcohol test within two hours following the supervisor's observation. However, if conditions prevent the test from being completed within the two-hour time frame, attempts will be made to have the test administered

within eight hours following the supervisor's observation. After eight hours, no test will be performed. The supervisor must document the reason for the delay and lack of testing.

Employees must remain at work, but must not perform safety-sensitive functions, until the reasonable suspicion test is administered or until eight hours after the reasonable suspicion was determined.

The testing vendor will administer a reasonable-suspicion controlled-substance test within 32 hours following the supervisor's observation.

If the controlled-substance test is not administered within 32 hours, no test will be given, and the supervisor must file and maintain records stating the reason for the delay and the lack of testing.

All employees, including non-supervisory employees, may call their division director, district engineer, or the State Fleet Services Division (328-2543) to state their suspicions about another employee, including a supervisor. The caller must give his or her name.

Post-accident Testing

Employees are responsible for notifying the Department as soon as practical of any aircraft or commercial motor vehicle accident that occurs on the job.

If an accident results in a death, all Department employees performing safety-sensitive functions at the scene must undergo post-accident alcohol and controlled-substance testing.

Department employees who are cited for moving traffic violations arising from accidents involving Department vehicles must undergo post-accident alcohol and controlled-substance testing if one of the following conditions applies:

- a) the accident involved bodily injury to a person who, as a result of the injury, receives medical treatment away from the scene of the accident, or
- b) the accident required the motor vehicle to be transported away from the scene by a tow truck or other motor vehicle.

The testing vendor will attempt to conduct the post-accident alcohol test within two hours after an accident requiring a test.

However, if conditions prevent the test from being completed within the two-hour time frame, attempts will be made to have the test administered within eight hours of the accident. After eight hours, no test will be performed. The employee's supervisor must document the reason for the delay and lack of testing. If it is not possible to meet the two-hour time frame, it is acceptable to have the alcohol test performed by law enforcement at the scene of the accident. Appropriate documentation must be maintained.

Employees must remain at work, but must not perform safety-sensitive functions, until the post-accident alcohol test is administered or until eight hours after an accident requiring a test.

The testing vendor will, if possible, also administer a post-accident controlled-substance test within 32 hours after all accidents requiring a test.

If the controlled-substance test is not administered within 32 hours, no test will be given, and the supervisor must file and maintain records stating the reason for the delay and the lack of testing.

Documentation regarding the alcohol test, the controlled-substance test, or lack of either test shall be forwarded to HRD for retention.

Random Tests

A minimum number of alcohol tests, equal to 10 percent of the average number of Department employees covered under this policy, will be performed each year. The vendor will select employees using a computerized random-selection program. Employees selected will be tested only while the employee is on duty and just prior to, just after, and while performing a safety-sensitive function.

A minimum number of controlled-substance tests, equal to 50 percent of the average number of employees covered under this policy, will be performed each year. Tests may be performed at any time the employee is on duty, regardless of the duties being performed at the time of testing.

Employees may potentially be tested at any time, even if there has been a recent previous test.

The division or district testing coordinator shall notify the employee just before the testing procedure.

Once an employee is notified of the testing, he or she must report immediately to the testing site.

The coordinator shall note the time of contact and anticipated arrival time on the alcohol and controlled-substance test reporting form. All alcohol and controlled-substance test forms from the districts shall be forwarded to their respective office. Central Office divisions shall forward test forms to HRD. Forms shall be retained in a confidential file for one year.

Return-to-Duty Tests

If an employee has violated the prohibited drug and alcohol rules but has not been terminated from employment, the employee will be required to undergo an evaluation by a substance abuse professional and successfully complete any education, counseling or treatment prescribed prior to returning to a safety-sensitive function for ANY Department work, and must provide a negative test result for drugs and a test result of less than .02 for alcohol.

Unannounced follow-up testing will be conducted at least six times in the first 12 months following return to active safety-sensitive work and may continue for up to five years. Return-to-duty tests are conducted under direct observation.

TESTING INFORMATION

All applicants and employees who undergo Department-mandated tests must be notified if the test result is positive.

The testing vendor (the firm the Department contracts with to handle the testing process) will follow specific procedures if an alcohol-test result is positive. The procedures are required by federal guidelines and are intended to make sure that the test result is a **true** positive.

Definition of Positive Alcohol Test

Alcohol tests will be considered positive if the breath-alcohol test indicates an alcohol presence of .04 or greater. If the test results are positive, the employee and supervisor will be notified before the employee leaves the test site.

If a breath-alcohol test indicates an alcohol concentration of at least .02, but less than .04, the test is considered negative, but the employee will be relieved of duty for 24 hours. The Department will hold an informal oral pre-action hearing before the employee is relieved of duty.

Testing Vendor Responsibilities in Alcohol Tests

If the initial test results are .02 or greater, the testing vendor will wait 15 minutes and then issue a retest or **confirmation test**. During the 15-minute waiting period before the confirmation test, the employee will be given a set of instructions (for example, no eating or drinking) that must be followed. If the employee does not follow these instructions, it may be considered an attempt to alter the test results. If the confirmation test result confirms the initial test result, the disciplinary action process will be initiated.

Definition of Positive Controlled-Substance Test

A controlled-substance test will be considered positive if the test indicates the presence of a controlled substance and the medical review officer determines there is no legitimate explanation for its presence.

Testing Vendor Responsibilities in Controlled-Substance Tests

Controlled-substance tests must use proper laboratory procedures. If a test is positive, it will be reviewed by the physician serving as the testing vendor's medical review officer (MRO). The MRO will follow specific procedures required by the federal guidelines. These procedures are intended to make sure that the test result is **true**. The MRO will call the employee who has tested positive or altered, discuss what might have caused the test result to be positive or altered, and make sure of the result before notifying the Department. If the test remains positive or altered, the employee may request, at the Department's expense, that a second independent analysis be performed on the untested portion of the sample.

DISCIPLINARY ACTION

The following charts indicate the typical action required for **controlled-substance tests, alcohol tests, and prohibited conduct**. Any employee who commits any of the acts where the required action indicates "termination" will typically lose employment with the Department.

If an employee violates a Department drug or alcohol rule, the Department will provide the employee with a list of substance abuse professionals, including the Department EAP contact information, even if employment is terminated.

All action involving suspension, demotion, or termination of regular employees shall be taken only if the employee has had a chance to respond to the charges and shall be subject to appeal.

REQUIRED RECORDS

Re: Amendment to Bid 952-07-16-050, Alcohol and Controlled Substance Testing

Bidders Instruction #9 of the solicitation established a deadline for receipt of questions. The responses to these questions are provided as addenda to the solicitation. When necessary, the solicitation has been amended.

Question 1:

The statement of work specifies specimen collection and chain of custody to be performed both on site and in fixed sites, can you tell when an onsite collection at your facility will need to be performed vs. going to approved network provider? Is by reason for test?

Answer 1:

A majority of the tests will need to be performed onsite. There are only a few instances where collection is done at a provider. Example being, an employee is sick or on vacation and cannot be present at the district location. In that instance, they would be sent to the network provider.

Question 2:

Random program administration, are selection performed monthly or quarterly? Are the selections by individual or by site? Are you open to performing selection by site in an effort to drive efficiency with performing on site collections?

Answer 2:

Random tests are completed quarterly. Employees are in one large random pool for selection. After the draw is complete the list can be divided by location and testing can be done on the same day for all employees drawn.

Vendors are instructed to acknowledge receipt of and compliance with this amendment by signing below and returning this acknowledgement with your bid or proposal.

GENERAL LIABILITY ELITE EXTENSION

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE FORM

The COMMERCIAL GENERAL LIABILITY COVERAGE FORM is amended to include the following clarifications and extensions of coverage. The provisions of the Coverage Form apply unless modified by endorsement.

A. EXPECTED OR INTENDED INJURY

Section I – Coverage A, Exclusion a. is amended as follows:

- a. "Bodily injury" or "property damage" expected or intended from the standpoint of an insured. This exclusion does not apply to "bodily injury" or "property damage" resulting from the use of reasonable force to protect persons or property.

B. NON-OWNED WATERCRAFT

Section I – Coverage A, Exclusion g.(2) is amended as follows:

- (2) A watercraft you do not own that is:

- (a) Less than 60 feet long; and
- (b) Not being used to carry person(s) or property for a charge;

C. EXTENDED PROPERTY DAMAGE COVERAGE

Section I – Coverage A, Exclusions j.(3) and (4) is amended to add the following:

Paragraphs (3) and (4) of this exclusion do not apply to tools or equipment loaned to you, provided they are not being used to perform operations at the time of loss.

SCHEDULE	
Limits Of Insurance	Deductible
\$5,000 Each Occurrence	\$250 Per Claim
\$10,000 Annual Aggregate	

- a. The each occurrence limit listed above is the most we will pay for all damages because of "property damage" to property in the care, custody and control of or property loaned to an insured as the result of any one "occurrence", regardless of the number of:

- (1) insureds;
- (2) claims made or "suits" brought;
- (3) persons or organizations making claims or bringing "suits".

The aggregate limit listed above is the most we will pay for all damages because of "property damage" to property in the care custody and control of or property loaned to an insured during the policy period.

Any payment we make for damages because of "property damage" to property in the care, custody and control of or property loaned to an insured will apply against the General Aggregate Limit shown in the declarations.

- b. Our obligation to pay damages on your behalf applies only to the amount of damages in excess of the deductible amount listed above. We may pay any part or all of the deductible amount listed above. We may pay any part or all of the deductible amount to effect settlement of any claim or "suit" and upon notification by us, you will promptly reimburse us for that part of the deductible we paid.

- c. If two or more coverages apply under one "occurrence", only the highest per claim deductible applicable to these coverages will apply.

- d. Insurance provided by this provision is excess over any other insurance, whether primary, excess, contingent or any other basis. Since insurance provided by this endorsement is excess, we will have no duty to defend any claim or "suit" to which insurance provided by this endorsement applies if any other insurer has a duty to defend such a claim or "suit". If no other insurer defends, we will undertake to do so, but we will be entitled to the insured's rights against all those other insurers.

D. PROPERTY DAMAGE – ELEVATORS

Section I – Coverage A.2. Exclusions paragraphs j.(3), j.(4), j.(6) and k. do not apply to use of elevators. This insurance afforded by this provision is excess over any valid and collectible property insurance (including any deductible) available to the insured and **Section IV – Commercial General Liability Conditions** paragraph 4. Other Insurance is changed accordingly.

E. FIRE, LIGHTNING OR EXPLOSION DAMAGE

Except where it is used in the term "hostile fire", the word fire includes fire, lightning or explosion wherever it appears in the Coverage Form.

Under **Section I – Coverage A**, the last paragraph (after the exclusions) is replaced with the following:

Exclusions c. through n. do not apply to damage by fire, smoke or leakage from automatic fire protection systems to premises while rented to you or temporarily occupied by you with permission of the owner. Random Selection Process

General Information

We utilize a cryptographic Random Number Generator (RNG) for random selections. This is a software/computer-generated method (a "scientifically valid method" per the Department of Transportation (DOT) guidelines) to perform random selections for Drug & Alcohol Random Program Management. *(See the Technical Information section below for additional details, as needed.)*

Random selections are performed at least quarterly but may be done more often if and as directed by the employer policy. Prior to each selection period, we request an updated employee list from the employer to assure current employment status of all applicable drivers. Upon receipt of employee list, we perform a random selection using the RNGCryptoServiceProvider, which is amenable with the Operating Administration rate for the specific DOT modalities.

An email notification of the random selection is sent to the Designated Employer Representative (DER). The DER logs into our secure website to view the details of the random selections. We recommend the DER reasonably spread the notification to selected employees over all hours of operations and throughout the entire testing period (i.e. monthly or quarterly). Additionally, upon direct notification by the DER to the employee, the employee should be informed to immediately proceed to the designated collection site for random drug and/or alcohol testing.

All random selection and donor information is kept strictly confidential in the secure database.

Technical Information

About the Draw

When a random selection is initiated, the employee identifying numbers of all valid employees within a pool are gathered and put into a stub. Three (3) random numbers generated by the RNGCryptoServiceProvider in the .NET platform are also within this stub. A list for all eligible employees of the selection is ordered by the first random number and stored in the database. This list is then randomized based on the second random number in the stub, and the primary drug selections are drawn. If the pool is setup for double jeopardy (i.e. alcohol random selections are drawn from the drug selections), the alcohol selections are added at this point. Once the drug selections are done, the list is randomized based on the third random number in the stub and alcohol random selections are drawn. Depending on whether multiple selections are allowed, the program either picks the person or goes to the next one to complete all of the primary selections. Once the primary selections are made, the program uses the first randomized list to select the alternates. Should additional alternates need to be drawn, the randomized list stored in the database is resorted based on Globally Unique Identifier (GUID) and selected.

Random Methods

RNGCryptoServiceProvider is a cryptographic RNG using the implementation provided by the cryptographic service provider. This is a higher quality random number generator than the GUID random numbers but comes at a performance cost.

GUID implements Universally Unique Identifiers (UUIDs) version 4 using random numbers. This algorithm sets the version number (4 bits) as well as two reserved bits. All other bits (the remaining 122 bits) are set using a random or pseudorandom data source. Version 4 UUIDs have the form xxxxxxxx-xxxx-4xxx-yxxx-xxxxxxxxxxxx where x is any hexadecimal digit and y is one of 8, 9, a, or b (e.g., f47ac10b-58cc-4372-a567-0e02b2c3d479). *(Source: Wikipedia)*
