The supplier's delivery person shall extract these samples in the presence of a Department employee. One sample will be tested by NDDOT. The second sample will be retained at the district as a check sample.

5. The supplier is responsible for weighing each shipment at the supply source, sealing the tank, recording the type of bitumen, its specific gravity (or typical specific gravity), and the gross, tare, and net weight on the shipment manifest.

6. The NDDOT reserves the right to weigh any load at the destination.

7. The supplier will be required to meet local haul limitations for roadway systems leading to the point of destination.

8. When ordering product, the NDDOT will indicate to the contractor the necessary destination point and arrival time, the desired product purpose (road application or storage) and the purchase order number. If the supplier is unable to meet the order requirements, the supplier must advise the NDDOT within 24 hours of the time the order was placed by facsimile or e-mail. *Ordering instructions are attached following page 16*

9. Two hours of free time for unloading will be allowed by the supplier at the destination point. After the initial two hours per container of free time for unloading, the NDDOT will reimburse the supplier at \$60.00 per hour or \$15.00 per 15-minute period and any portion thereof. Free time will commence at the supplier's requested arrival time or when the shipment arrives during scheduled work, whichever is later.

10. Liquid bituminous shall meet or exceed the following minimum temperatures, as measured at the destination point.

MATERIAL	DELIVERED TEMPERATURE FOR APPLICATION
MC 70 cutbacks	150° F
MC *250 cutbacks	200° F
MC *3000 cutbacks	260° F
CSS-1H Dilute	100° F
Emulsions	125° F

*When districts request MC 250 for storage, delivery temperature shall be minimum 185° F. When districts request MC3000 for storage, delivery temperature shall be minimum 230° F. Districts shall indicate the purpose when ordering.

The NDDOT will assess a price reduction for material delivered and not meeting the above minimum temperature requirements in accordance with the Measurement and Payment section of this proposal.

Measurement and Payment:

1. Measurement, payment, and price reductions for material failing to meet specifications shall comply with section 109 of the NDDOT Standard Specifications for Road and Bridge Construction, adopted October 2008 and supplemental specifications effective March 1, 2013.

If the contractor's testing methods vary from those required by the bid document; then measurement, payment, and acceptance of the product will be based on sampling and testing of the delivered product meeting NDDOT specifications.

2. The cost of the material and all costs of shipping and handling shall be included in the bid.

3. The supplier will bill the NDDOT on a single invoice for supplying and delivering the bituminous material. Cost of material (F.O.B. refinery) and the freight cost shall be listed separately on the invoice. Suppliers will indicate the order number(s) on their invoice.

BIDDER CALUMET SUPERIOR

4. Liquidated damages will be assessed for late delivery of liquid bituminous material, and/or for failure of the product to meet delivery specifications, that result in a work delay for NDDOT personnel. The liquidated damages will be assessed for each type of work delay in accordance with the following schedule:

- a. Roadway sealing operations \$ 400 per hour
- b. All other work activities \$ 80 per hour

Districts will notify the Maintenance Division regarding all late deliveries causing work delay. The contractor will receive a written notice of deduction from the NDDOT.

5. The NDDOT, in consideration for the unit price obtained from the supplier, agrees to purchase from each contract a minimum of \$500 of product during the contract period.

Material Specifications:

Specifications for cutbacks and emulsions shall comply with the following provisions:

818.1 GENERAL REQUIREMENTS

The original certificate covering material shipped in each car or tank truck shall be furnished at the time of shipment.

The certificate shall be furnished to the applicable Department's District office and shall contain the following information:

- 1. Project number

 - If there is foreign (solid) matter in the distillation residue, pour the material through a No. 50 sieve that has been preheated at 275 ± 9°F prior to pouring into the test mold.
- Section 4.5 - Cut the specimen immediately upon stopping elongation. Do NOT hold in the elongated position for 5 minutes prior to cutting.

Service Contracts with Private Individuals, Companies, Corporations, Etc.:

Contractor agrees to defend, indemnify, and hold harmless the state of North Dakota, its agencies, officers and employees (State), from and against claims based on the vicarious liability of the State or its agents, but not against claims based on the State's contributory negligence, comparative and/or contributory negligence or fault, sole negligence, or intentional misconduct. The legal defense provided by Contractor to the State under this provision must be free of any conflicts of interest, even if retention of separate legal counsel for the State is necessary. Contractor also agrees to defend, indemnify, and hold the State harmless for all costs, expenses and attorneys' fees incurred if the State prevails in an action against Contractor in establishing and litigating the indemnification coverage provided herein. This obligation shall continue after the termination of this agreement.

Contractor shall secure and keep in force during the term of this agreement, from insurance companies, government self-insurance pools or government self-retention funds authorized to do business in North Dakota, the following insurance coverages:

- 1) **Commercial general liability and automobile liability** insurance – minimum limits of liability required are **\$250,000 per person and \$1,000,000 per occurrence.**
- 2) **Workers compensation** insurance meeting all statutory limits.
- 3) The State of North Dakota, its agencies, officers, and employees (State) shall be endorsed as an **additional insured** on the commercial general liability and automobile liability policies.
- 4) Said endorsements shall contain a **"Waiver of Subrogation"** in favor of the state of North Dakota.
- 5) The policies and endorsements may not be canceled or modified without **thirty (30) days prior written notice** to the undersigned State representative.

Contractor shall furnish a certificate of insurance evidencing the requirements in 1, 3, and 4, above to the undersigned State representative prior to commencement of this agreement.

The State reserves the right to obtain complete, certified copies of all required insurance documents, policies, or endorsements at any time. Any attorney who represents the State under this contract must first qualify as and be appointed by the North Dakota Attorney General as a Special Assistant Attorney General as required under N.D.C.C. Section 54-12-08.

When a portion of a Contract is sublet, the Contractor shall obtain insurance protection (as outlined above) to provide liability coverage to protect the Contractor and the State as a result of work undertaken by the Subcontractor. In addition, the Contractor shall ensure that any and all parties performing work under the Contract are covered by public liability insurance as outlined above. All Subcontractors performing work under the Contract are required to maintain the same scope of insurance required of the Contractor. The Contractor shall be held responsible for ensuring compliance with those requirements by all Subcontractors.

Contractor's insurance coverage shall be primary (i.e., pay first) as respects any insurance, self-insurance or self-retention maintained by the State. Any insurance, self-insurance or self-retention maintained by the State shall be excess of the Contractor's insurance and shall not contribute with it. The insolvency or bankruptcy of the insured Contractor shall not release the insurer from payment under the policy, even when such insolvency or bankruptcy prevents the insured Contractor from meeting the retention limit under the policy. Any deductible amount or other obligations under the policy(ies) shall be the sole responsibility of the Contractor. This insurance may be in a policy or policies of insurance, primary and excess, including the so-called umbrella or catastrophe form and be placed with insurers rated "A-" or better by A.M. Best Company, Inc. The State will be indemnified, saved, and held harmless to the full extent of any coverage actually secured by the Contractor in excess of the minimum requirements set forth above.
