**SPECIFIC TERMS AND CONDITIONS  
FOR  
TYPE B ATTENUATION DEVICE**

**A. Special terms and conditions.**

Scope:

This solicitation is intended to establish pricing agreements for Type B Attenuator Devices. The type of equipment to be furnished under the resultant contract(s) of this solicitation includes, but is not limited to, a complete line of a modular attenuator system and related accessories.

NDDOT will not be obligated to purchase any minimum quantity from any contract(s) resulting from this solicitation.

Purpose:

The resulting contract(s) will allow NDDOT to order replacement components for damaged in place systems. Currently NDDOT has installations of the three acceptable brands. If a complete setup is destroyed, it may be replaced with another acceptable brand dependent on price.

Award Criteria:

NDDOT reserves the right to award multiple contracts, by brand, for the modular attenuator barrel systems requested in this solicitation. Award will be made to the responsive bidder(s) considering price, specifications, terms of delivery and ability to provide service.

Sales Support:

The attached Attenuation Device standard D-704-1, last revised 7/18/14, is incorporated into the contract.

<http://www.dot.nd.gov/docs/design/Design%20Standards/D704-01.pdf>

The successful bidders will be required to furnish users of this contract with descriptive literature or nomenclature information upon request and will be responsible for helping the customer configure systems that comply with these standards.

**B. Product Requirements.**

Acceptable Brands:

Energite III System, Fitch Universal Module System, Traffix Devices, Inc. Big Sandy System or approved equal.

Specifications:

System is to meet the requirements of NCHRP-350 TL-3.

New Equipment:

Parts and equipment purchased under this contract shall be typical new production items. Used equipment, refurbished or sample test items are not acceptable.
